

REACH Compliance Statement

The EU regulation EC 1907/2006 which covers the Registration, Evaluation, Authorization and Restriction of Chemical substances is an EU regulation that became effective on June 1, 2007. The purpose of this legislation is to ensure human and environmental health by regulating Substances of Very High Concern, or SVHC's. These substances are listed in the REACH legislation.

None of the end products we produce have any SVHC substances in concentrations above the minimums contained in the legislation.

HYPERNETICS will continue to monitor the EU regulations, and if any substances begin to be included in our products that require registration, we will inform our customers according to the REACH legislation.
